From its inception, Modern Shed has continuously strived to create long-lasting, high-quality products that fulfill the unique needs of our customers.

2005

BUILDING THE FIRST SHED

Ryan Grey Smith and Ahna Holder, husband and wife architect team had just purchased a 1940s-era home in Seattle that they planned to renovate. However, they ran into an interesting problem. Their new home lacked a garage, a basement and an attic. Without any storage space indoors, the couple looked outside — and they realized the answer was simple.

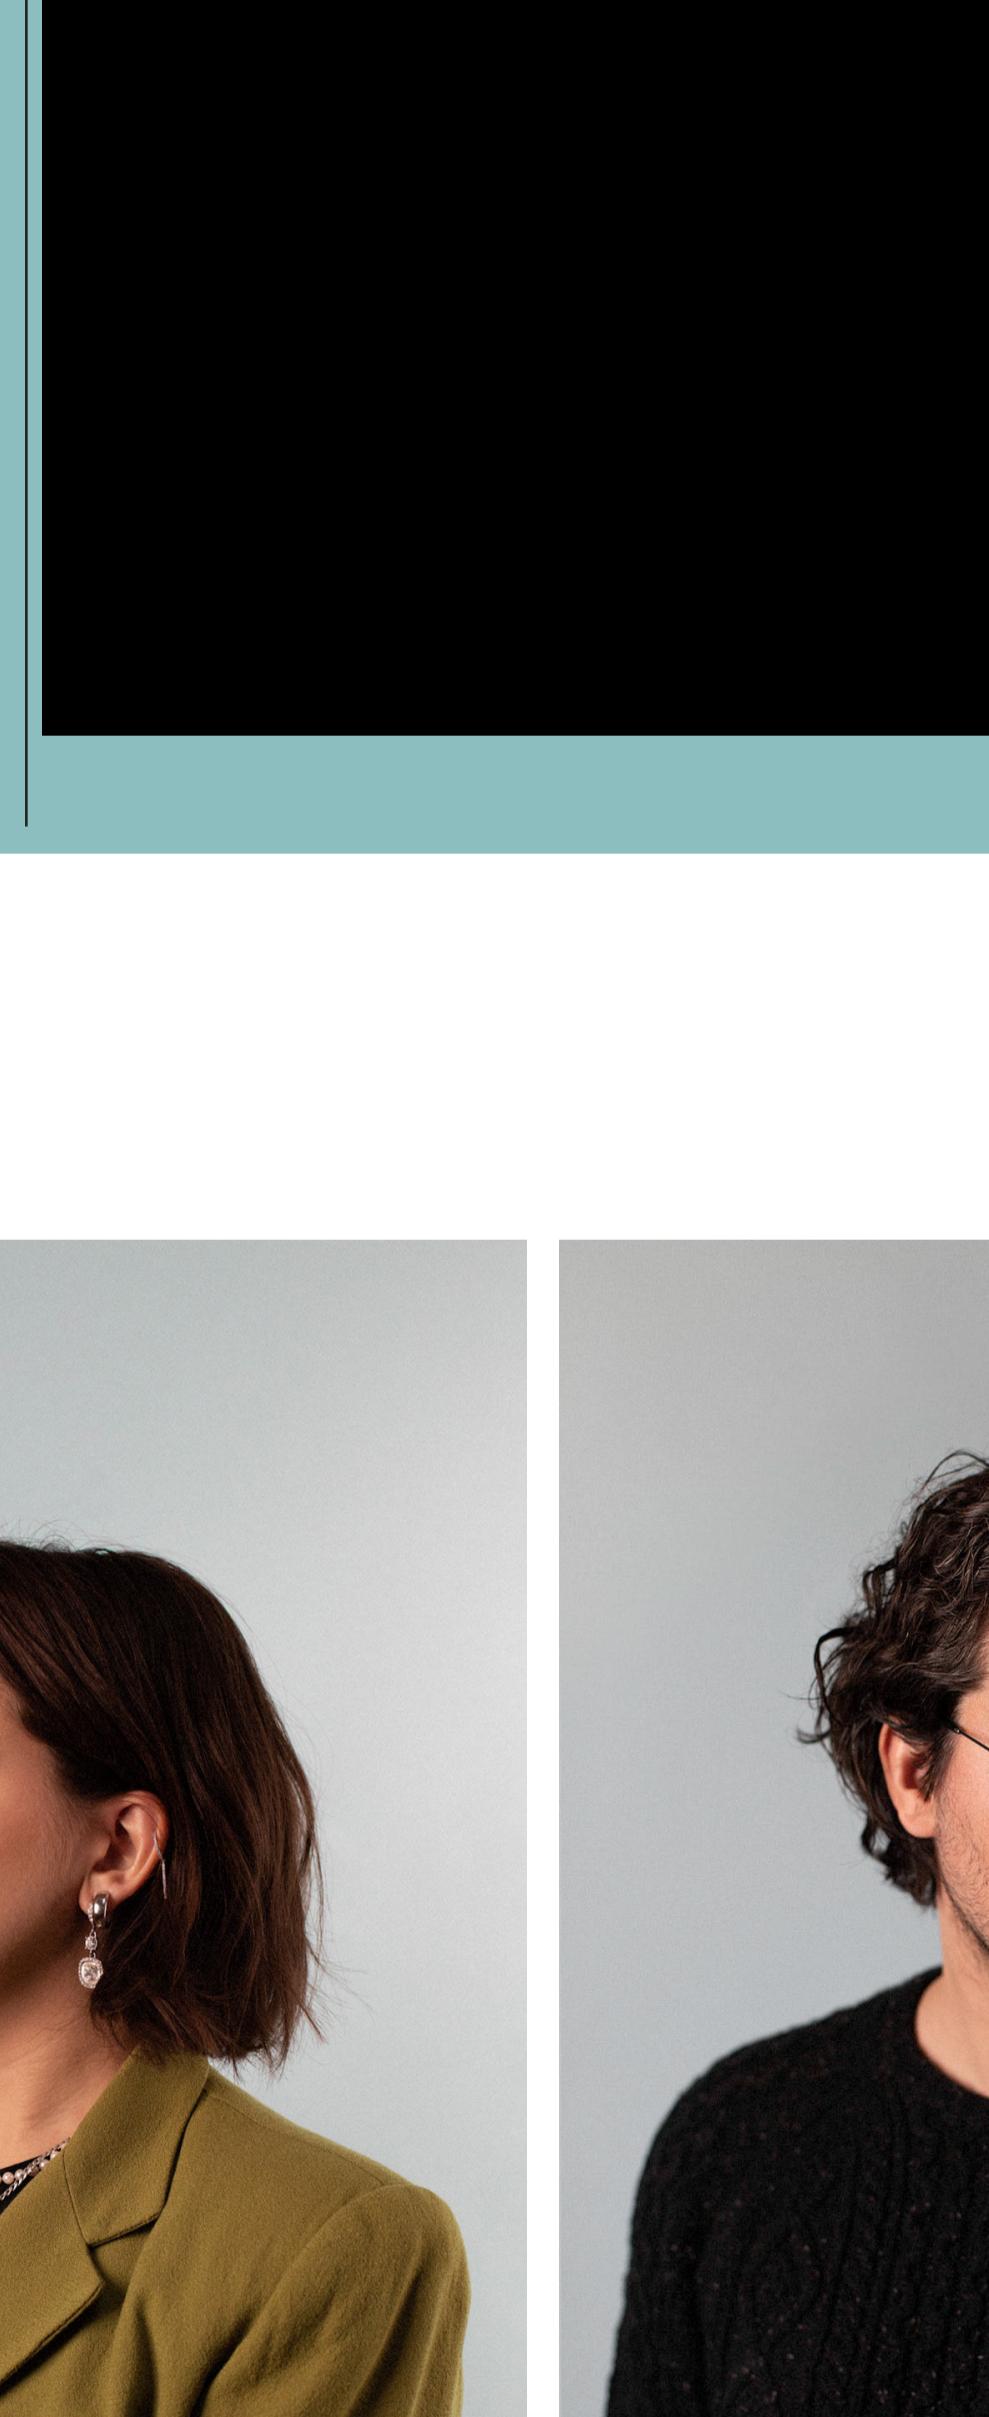

They built a shed. More accurately, they built a solution for their lives; Less a shed, and more a stylish, peaceful get-away in the backyard. Their shed became the basis for all Modern-Sheds. Modern-Shed launched in 2005, and we've been creating solutions for our clients around the country ever since.

2012

Ryan Grey Smith and Ahna Holder, husband and wife architect team had just purchased a 1940s-era home in Seattle that they planned to renovate. However, they ran into an interesting problem. Their new home lacked a garage, a basement and an attic. Without any storage space indoors, the couple looked outside — and they realized the answer was simple.

2014

We understand every customer has their own use for our Sheds. Each Shed is tailored specifically to our customers' unique needs.

Step 01 Introduction

Contact one of our design professionals who will listen and design all the elements you desire into your Modern Shed. Permit plans and engineering are available for projects requiring a building permit.

Step 02 Design & Assessment

4 to 6 Weeks

Once you have approved the design your shed will be scheduled for production.

Step 03 Fulfillment

The components are either loaded into one of our enclosed trailers for delivery up and down the west coast, or forklifted onto a commercial truck/trailer for shipment.

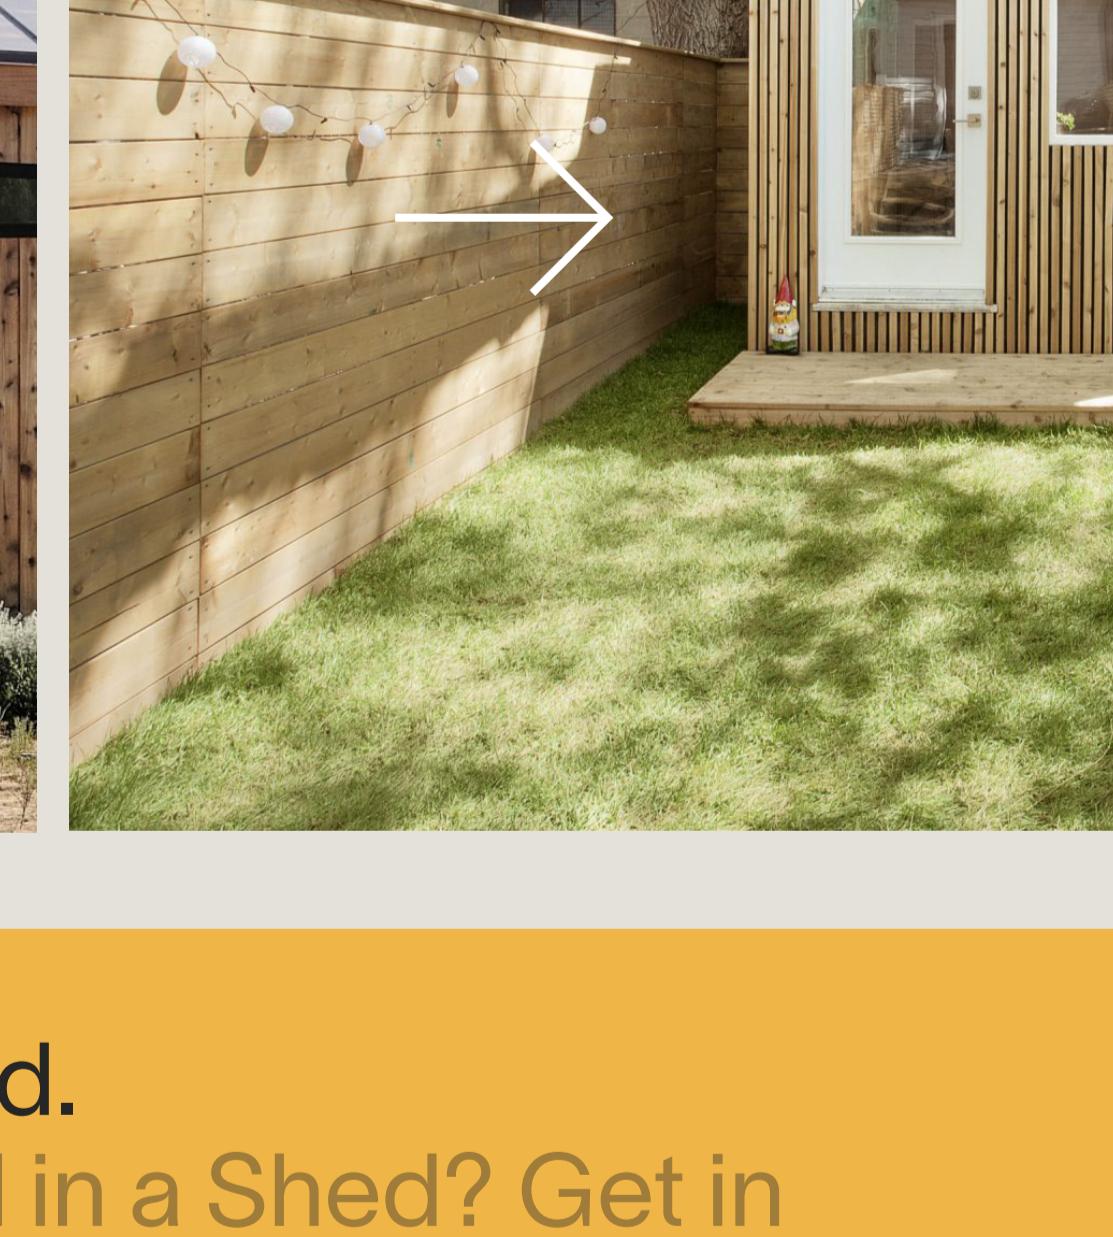

Step 04 Construction

1 to 2 Weeks

Either one of our authorized installers or a contractor of your choosing will install your new Modern-Shed. The time frame depends on several factors.
